TOP GEAR: STUNT SCHOOL REVOLUTION SCREECHES ONTO iOS WITH EXTREME CAR STUNTS AND CHALLENGES

Players put their driving skills to the test to ace stunts across the globe

LONDON, LOS ANGELES AND SYDNEY JUNE 14, 2012 - BBC Worldwide Digital Entertainment & Games today announced that *Top Gear: Stunt School Revolution* is now available for free download on iOS and coming soon on Android systems. A follow up to the successful *Top Gear: Stunt School*, the entirely new game delivers fans more over-the-top tracks, stunts and cars to customize and race in true *Top Gear* fashion. Players will need to use their skills to jump higher, cut tighter turns and withstand destruction as they explore iconic locations all over the world including the Grand Canyon, Alcatraz, Sydney Harbor Bridge and New York City.

Developed by BBC Worldwide Digital Entertainment & Games and Supersonic, *Top Gear: Stunt School Revolution* lets players customize cars to the extreme with jet engines, bulldozer shovels, snow plows and more. Tapped into the classic *Top Gear* culture, the game features experimental vehicles from the show, starting with the home-built "Hammerhead" at launch. New content will be added to the game weekly which will include more challenges, stunts and cars.

Robert Nashak, EVP Digital Entertainment & Games, BBC Worldwide said, "*Top Gear: Stunt School Revolution brings all the irreverence and humor of Top Gear to mobile and tablet gaming. Players should brace themselves for a ton of stunts and a ridiculous amount of car customization.*"

Elements of the cars are customizable and can be modified to improve performance and visual appeal. There are three classes of vehicles:

- **Compact Cars** – Light, and great for launching into the air
- **Sports Cars** – Fast and powerful that maneuver well; great for stunts where you need acceleration and sharp steering
- **Utility Vehicles** – Strong, durable and heavy; great for carrying heavy items

One of the BBC's premiere brands, *Top Gear* which premiered in the UK in 1977 is consistently BBC TWO's most-watched program in the UK. In Australia, *Top Gear* is broadcast on Channel Nine and BBC Knowledge. Fans can also keep up-to-date with *Top Gear Magazine*, Australia's most read men's magazine, www.topgear.com and the global road tour, *Top Gear Live*.

About BBC Worldwide Digital Entertainment and Games

BBC Worldwide Digital Entertainment and Games is a core business within BBC Worldwide, the main commercial arm and wholly-owned subsidiary of British Broadcasting Corporation (BBC). Launched in 2010 and headquartered in Los Angeles and London, the business works with top BBC brands to develop new opportunities across a wide range of gaming platforms. The business is responsible for the company's first MMO, *Doctor Who: Worlds In Time* and the multi-year partnership with Top Gear and Forza Motorsport, amongst many others.

BBC WORLDWIDE

BBC Worldwide Limited is the main commercial arm and a wholly owned subsidiary of the British Broadcasting Corporation (BBC). The company exists to maximise the value of the BBC's assets for the benefit of the licence fee payer and invest in public service programming in return for rights. The company has five core businesses: Channels, Content & Production, Sales & Distribution, Consumer Products and Brands, Consumers & New Ventures, with digital ventures incorporated into each business area. In 2010/11, BBC Worldwide generated profits of £160 million on sales of £1158 million and returned £182m to the BBC. For more detailed performance information please see our Annual Review website:
