**Thursday May 24, 2012*****Doctor Who: The Eternity Clock Now Available on PlayStation®3***  
***Players travel across time and space to discover the mystery of the Eternity Clock***

BBC Worldwide Digital Entertainment & Games today announced that *Doctor Who: The Eternity Clock* is now available for download for PlayStation®3 (PS3), from PlayStation®Network globally. The game immerses players in the universe of Doctor Who across 600 years of history and the future. Players take on the roles of the Doctor and River Song as they travel across time and space to save the Earth, and time itself. In order to be successful, they must master the complexities of time travel through exceptional time-based gameplay - changes made in one time will impact another, creating multiple possibilities and challenging players to solve puzzles across the centuries.

Equipped with the Doctor's "sonic screwdriver," River's "blaster" and other fantastic gadgets, players journey through four London time periods and a number of other-worldly locations in search of answers. With collaborative multiplayer capabilities, players can take part in the game simultaneously across different time periods, facing some of the most fearsome monsters including Silurians, Cybermen, Daleks and the Silence.

Robert Nashak, EVP Digital Entertainment and Games at BBC Worldwide said, "Doctor Who is such a beloved BBC franchise, and we're fortunate to work collaboratively with the creative minds behind the TV show, bringing fans an authentic experience in the universe that is Doctor Who."

The stars of the Doctor Who TV series Matt Smith (the Doctor) and Alex Kingston (River Song) provide voiceovers for the game, and motion capture technology creates in-game character movements to add realism to the ultimate Doctor Who gaming experience.

Developed by BBC Worldwide Digital Entertainment & Games and Supermassive Games, *Doctor Who: The Eternity Clock* is available for download on PlayStation Network for the PlayStation 3 in Australia \$27.95 and New Zealand \$33.90. The PlayStation®Vita (PS Vita) and PC platforms will follow later this year.

Doctor Who, one of BBC Worldwide's flagship brands, is the longest-running science fiction series in the world. It's the story of the Doctor, the mysterious traveler in time and space, who has saved the universe so very many times. In the U.S., *Doctor Who* broadcasts to over 70 million homes on BBC America. In 2011, the show delivered record ratings for the channel, generated mass critical acclaim and ranked #1 for downloaded series on iTunes.

Ends.

**About BBC Worldwide Australia**

Australia is a priority territory for BBC Worldwide, focusing on growth across all five of its core businesses. Based in Macquarie Park, Sydney, the company's addressable market share has trebled in three years. BBC Worldwide Australia wholly owns five channels; UKTV, BBC Knowledge and CBeebies in Australia; UKTV NZ and BBC Knowledge NZ in New Zealand; and is responsible for the sales, promotion and distribution of World News which transmits in both countries. It distributes great British content from the BBC and other producers to all free-to-air and most subscription channels in Australia and New Zealand. BBC Worldwide Australia has a joint venture company with ACP, Park Publishing, which publishes BBC-branded magazines in the territory. It works with partners to bring BBC Worldwide DVDs, digital apps, innovative products and live events to the local market, as well as offering advertising opportunities for the BBC's world renowned [bbc.com](http://bbc.com) news site and [lonelyplanet.com](http://lonelyplanet.com). BBC Worldwide Australia has recently launched the global BBC iPlayer in Australia.

**About BBC Worldwide Digital Entertainment and Games**

BBC Worldwide Digital Entertainment and Games is a core business within BBC Worldwide, the main commercial arm and wholly-owned subsidiary of British Broadcasting Corporation (BBC). Launched in 2010 and headquartered in Los Angeles and London, the business works with top BBC brands to develop new opportunities across a wide range of gaming platforms. The business is responsible for the company's first MMO, *Doctor Who: Worlds In Time* and the multi-year partnership with Top Gear and Forza Motorsport, amongst many others.
